

Making Learning Visible

The Practice Book

Successful Teaching with the Steev Approach

[To order via the publisher](#)

Teachers find solutions for challenging teaching situations in five steps.

Thirty-six practice examples show possible solutions. References to 35 factors which influence learning ([Hattie Wiki](#)) provide security.

School leaders gain insight into effective and sustainable development of teaching and learning with the Steev Approach (German: Luise-Verfahren) method.

Trainers and counsellors get to know training courses with high transfer potential.

Researchers recognise how co-operation between practice and educational research can succeed.

The self-study and practice book offers three different starting points to get started, planning aids and instructions for one's own lesson development.

It acknowledges selected current findings from John Hattie's latest book **Visible Learning – The Sequel** (2023).

All this renders tangible how "making learning visible" can be implemented profitably in educational practice.
